Lab 05 - Staff Plan & Structure

Project: Document Management System

Name	Role
Omar Ayman Shebl Motawea	Project Manager / Business Analyst
Michael Erian Ayad Sadhom	System Designer / UI/UX Designer
Gamal Hamed Gamal Aldin	Documentation & QA

1. Purpose

This lab defines the project team structure, clear responsibilities, and task ownership for the Document Management System (DMS) project to ensure smooth execution across all phases.

2. Team Roles and Responsibilities

Name	Role	Core Responsibilities
Omar Ayman Shebl Motawea	Project Manager / Business Analyst	Oversees project timeline, manages Trello board, gathers business requirements, and analyzes workflow needs.
Michael Erian Ayad Sadhom	System Designer / UI/UX Designer	Designs system architecture, creates Data Flow Diagrams (DFD), UML diagrams, and develops user interface mockups.
Gamal Hamed Gamal Aldin	Documentation & QA	Writes, formats, and organizes documentation deliverables, and performs quality assurance checks on all lab outputs.

3. Task Ownership & Workflow Integration

Task ownership is distributed based on individual expertise while maintaining collaborative oversight:

- **Planning & Feasibility:** Led by Omar with inputs from all team members.
- **Analysis & Design:** Led by Michael, covering requirements, DFDs, and UML modeling.
- **Quality & Documentation:** Led by Gamal, ensuring consistency across all generated reports before submission.

4. Conclusion

The defined staff structure ensures a clear division of labor, preventing overlap and ensuring that every project deliverable is assigned to a dedicated owner.
